A Father Speaks
About Life Changes

“I came out of prison, over 10 years ago, owing $133,000 in child support arrears and not being an involved father. I needed guidance on how to turn things around. Today, I’m married, have custody of my children, own a home and work as Fatherhood Program Director out of Lakewood in Pierce County. DADS has afforded me the ability to be able to reach back into the community and help others in the situations surrounding their own children and families.”
-William Haynes

How you can make a difference
Make a tax-deductible contribution on our website, aboutdads.org, or by check mailed to our Seattle office.

- Donate office supplies.
- Join the DADS board.
- Share your talents as a volunteer
- Call our office for ideas!
To give fathers hope by walking together in supportive community, helping navigate relational and legal barriers which separate them from their children and families.

**Goals**

Model healthy relationships  
Break the cycle of family violence  
Empower fathers to become positive agents of change in their homes and communities

**MISSION**

DADS SERVICES

DADS provides resources and support for fathers seeking to establish/restablish positive relationships with their children.

**These services include:**

**Child Support Management** — guidance and assistance for fathers who are in arrears on their child support obligations. Fathers learn how to obtain affordable terms for their payments, which helps both the fathers and the children. DADS counseling and assistance increases the amount of money going into Child Support from their clients, and helps fathers get on a solid financial footing.

**Parenting Plan Assistance** — helping fathers obtain and understand legal documents for custody and visitation.

**Reunification** — helping fathers reunite with their children and families.

**Parenting classes** — referring fathers to parenting classes at an outside agency to increase their capacities to communicate with their children and to develop stronger parent-child relationships.

**Support Groups** — our men’s support groups encourage fathers to grow in their commitment to their families. Fathers find hope, encouragement and relationships to do the hard work of becoming loving, responsible dads.

**Case Management** — Providing one-on-one case advocacy. This includes assistance with referrals to gaining housing, legal research assistance, drug rehabilitation and pre-employment services.

**DADS Outcomes**

- Fathers learn how to access support services.
- Fathers are viably employed
- More fathers are active parents
- Children’s academic performance and social skills improve.
- More families stay together.
- More families reunite.
- Positive relationships develop with fathers and children’s mothers.
- Mothers recognize the importance of supporting a father’s role.
- Children experience a reduction in high-risk behaviors and criminal activity.
- Kids become involved in positive after-school activities.
- More and more community organizations and individuals refer fathers to DADS as they hear success stories at events and from people they know.
